

SIIT Academic Excellence Awards

Guidelines and criteria for granting the academic excellence awards:

- 1) The numbers of academic excellence awards to be granted are as follows:

First-Year Class: 1% of total number of first-year students

Second, Third and Fourth-Year Classes:

- 1 award (ranked the first) for a class of 0 – 44 students
- 2 awards (ranked the first and second) for a class of 0 – 74 students
- 3 awards (ranked the first, second and third) for a class > 74 students

Graduating Classes: one award per academic program

- 2) For first, second, third and fourth-year classes, the recipients of the academic excellence awards (**silver medals**) must possess a **minimum GPA of the applicable academic year (first and second semesters) of 3.00**. The award recipients must have registered at least 75% of the courses required in that academic year.

For the **graduating classes**, the recipients of the academic excellence awards (**gold medals**) must have completed the study with a **minimum cumulative GPA for four years of 3.00**. The award recipients must have registered at least 75% of the courses required in the four-year curriculum.

- 3) If there are two students ranked the first, based on the GPA (with two decimal points), two awards will be granted. If there are more than two students ranked the first or more than one student ranked the second or the third, the GPAs with 4, 6, or 8 decimal points should be used in ranking these students for granting the awards. For other cases, the Executive Committee will consider case-by-case
